"From the careful colouring of these Portions (of De Bry); the emblazoning of the Dedication; the finishing of the Arms of the Invaders, as well as the personal Ornaments of the Natives with Gold and Silver, it may be reasonably inferred (the covers being richly gilt and marked with the date of 1592), that it was either executed for some ardent lover of Books of the age of Elizabeth, or for a Present to some then distinguished personage, not improbably the great Sir Walter Raleigh, whose exploits are related in the first portion.

The Artist who coloured these curious prints has set his name (G. Salfor), on the title to the first part, and certainly deserves honourable mention among book embellishers of the period; for looking at the quality of the paper, it is surprising that he has executed his task so well.

Romæ, e Facciotte, 1631
- A very scarce and curious volume on the discovery of the West Indies. Its writer was the intimate friend of Columbus, and whose interest prevailed over Ferdinand to fit out the first expedition *in search of unknown lands*, and proved the feasibility of discovery by mathematical demonstration. Previous to being appointed Bishop of St. Domingo, he had been Ambassador to the Court of Henry VIII. of England. We learn from the 12 leaves of verses in commendation of the Author and his travels by various writers, in Greek, Latin, Italian, French, German, Spanish, Hungarian, and English Languages, the latter written by John Walker, that the Bishop had had the charge of four Queens, the greatest of whom was Catherine of Arragon, Queen of Henry VIII.

- Dr. Gordon went to America in 1770, and remained there until 1786, and wrote a considerable part of his work on the spot. Congress allowed him the inspection of such records as could with propriety be submitted to the perusal of a private person. Washington, Gates, Greene, Lincoln, and Otho Williams also allowed a liberal examination of their papers. "The accounts here given of American Affairs," says the author, "are so different in several respects from what have been the conceptions of many on each side the Atlantic, that it was necessary to insert a variety of letters, papers, and anecdotes, to authenticate the narrative."

THE CAPTAIN'S OPINION OF QUEBEC.

Quebec I sing of War is
A charming place, a second Paris
To view with poetic eyes,
As on the mountain side it lies,
It seems a great two-handed Jack,
Sitting on high Cape Diamond's back.
Washing his feet in the *Cul de Sac*.

A right distinction here is made,
Twixt Gentlemen and men of trade:
The gentlemen live on the hill,
The men of Trade in the *Basse Ville*.
And each is suited to his wish,
For catching larks or catching fish.

The Governor so good you know,
To every one so "*Comme il faut*;"
The English ladies all so bright,
The French so easy, so polite,
That tho' a man a word cant thump in
They'll guess his meaning by his mumping.
In short but for the Snow and Ice,
It might be called a Paradise.

5724 HARTLEY (David) when Minister at Paris for the Treaty of Peace. *Very long and interesting letter, in Hartley's own autograph, 16 closely written pages.* 4to. £2. 2s

This letter, most important in its objects and opinions, was written to Lord Sydenham, the Secretary of State for Foreign Affairs, as appears by the copy contained in the Hartley correspondence. It enters very fully into the subject of the principles and prospects of the United States, and the danger of Great Britain in the continued friendship between them and France. He suspects France is intriguing in this matter, and refers to the Marquis de la Fayette's visit to America without reason given, and describes his interview with Monsieur de Vergennes, quoting his words. Several pages are occupied on the subject of the British and American marine, and ultimate destiny of the United States is forcibly pointed out. The letter is altogether a most masterly production, and events have since shown how truly Hartley prognosticated.

 "This is undoubtedly the best work hitherto published on the dialects of Yorkshire in general, and of Leeds in particular. The author, we believe one of our fellow townsmen—for his introductory remarks are dated 'Leeds, March, 1861'—has used not only great industry, but much keen observation, and has produced a book which will everywhere be received as a valuable addition to the archaeological literature of England."—*Leeds Intelligencer*.

Riley, M.A. 4to, pp. 672 (original price 18s.), *the few remaining copies offered, in cloth, at 9s.—half morocco (Roxburgh style), 10s. 6d.—whole bound in vellum, carmine edges, 12s.—whole morocco, carmine edges, 13s. 6d.* 1862

Extensively devoted to details which must of necessity interest those who care to know something more about their forefathers than the mere fact that they have existed. Many of them—until recently consigned to oblivion ever since the passing away of the remote generations to which they belonged—intimately connected with the social condition, usages, and manners of the people who—uncouth, unlearned ill-housed, ill-fed, and comfortless though they were, still formed England's most important, most wealthy, and most influential community throughout the chequered and troublous times of the thirteenth and fourteenth centuries. During this period, in fact, there is hardly a phase or feature of English national life upon which, in a greater or less degree, from these pages of the "LIBER ALBUS," some light is not reflected.

The Land's End District: its Antiquities, Natural History, Natural Phenomena, and Scenery; also a Brief Memoir of Richard Trevithick, C.E. By RICHARD EDMONDS (*late of Penzance*). 8vo, maps, plates, and woodcuts, cloth. 7s. 6d. 1862

—LARGE PAPER (*for the connoisseur of choice Books*). Post 8vo. *cloth, 7s. 6d.* 1860

"Nothing can be more interesting than this little book, containing a lively picture of the opinions and conversations of one of the most eminent scholars and most distinguished patriots England has produced. There are few volumes of its size so pregnant with sense, combined with the most profound learning; it is impossible to open it without finding some important fact or discussion, something practically useful and applicable to the business of life. Coleridge says, 'There is more weighty bullion sense in this book than I ever found in the same number of pages in any uninspired writer.' . . . Its merits had not escaped the notice of Dr. Johnson, though in politics opposed to much it inculcates, for in reply to an observation of Boswell, in praise of the French Ana, he said, 'A few of them are good, but we have one book of that kind better than any of them—Selden's Table Talk.'"—*Mr. Singer's Preface.*

The Life and Times of Daniel De Foe; with Remarks, Digressive and Discursive. By WILLIAM CHADWICK. 8vo. pp. 472, *portrait, cloth, 10s. 6d.* 1859

"Daniel De Foe devoted his life and energies to the defence of free institutions and good government. He was the Radical of his day. He not only wrote, but suffered for truth and liberty. He was impoverished and persecuted for his labours in this cause; nay, he was repeatedly imprisoned for his principles, or for his unwavering attachment to them, and for his boldness and honesty in asserting them. He was the vigorous and indefatigable opponent of priestism, of ecclesiastical domination, and of the Popish tendencies of his time. We might not approve of all he wrote against the Catholics, but we should remember that he saw and felt, as we cannot, how inherently opposed to true freedom is the Catholic system. Although we live in very different times from those in which De Foe lived, yet his life is full of pregnant lessons for the liberals and friends of religious freedom of our day."—*Bradford Review.*

Wayland Smith.—A Dissertation on a Tradition of the Middle Ages, from the French of G. B. DEPPING and FRANCISQUE MICHEL, with Additions by S. W. SINGER, and the amplified Legend by OEHLENSLAGER. 12mo. *cloth, 3s. 6d.* *Pickering, 1847*

Notes on Ancient Britain and the Britons. By the Rev. W. BARNES, author of the "Philological Grammar," "Anglo-Saxon Delectus," "Dorset Dialect," &c. Foolscap 8vo. *cloth, 3s.* 1858

"Mr. Barnes has given us the result of his Collections for a Course of Lectures on this subject, and has produced a series of Sketches of the Ancient Britons, their language, laws, and modes of life, and of their social state as compared with that of the Saxons, which will be read with considerable interest."—*Notes and Queries.*

"We are very glad to meet with such pleasant and readable 'Notes' as Mr. Barnes's. They are very unaffected essays, imparting much warmth to the old carcase of British lore, and evincing some real study. He has found out the value of the old Welsh laws, and has made some useful comparisons between them and those of the Saxons with much freshness if not absolute novelty."—*Guardian.*

Taliesin; or, the Bards and Druids of Britain. A Translation of the Remains of the earliest Welsh Bards, and an examination of the Bardic Mysteries. By D. W. NASH, member of the Royal Society of Literature. 8vo. *cloth, 14s.* 1857

Britannic Researches; or, New Facts and Rectifications of Ancient British History. By the Rev. BEALE POSTE, M.A. 8vo. (pp. 448), with engravings, cloth, 15s. 1853

"The author of this volume may justly claim credit for considerable learning, great industry, and, above all, strong faith in the interest and importance of his subject. . . . On various points he has given us additional information, and afforded us new views, for which we are bound to thank him. The body of the book is followed by a very complete index, so as to render reference to any part of it easy: this was the more necessary, on account of the multifariousness of the topics treated, the variety of persons mentioned, and the many works quoted."—*Athenæum*, Oct. 8, 1853.

"The Rev. Beale Poste has long been known to antiquaries as one of the best read of all those who have elucidated the earliest annals of this country. He is a practical man, has investigated for himself monuments and manuscripts, and we have in the above-named volume the fruits of many years' patient study. The objects which will occupy the attention of the reader are—1. The political position of the principal British powers before the Roman conquest—under the Roman dominion, and struggling unsuccessfully against the Anglo-Saxon race; 2. The Geography of Ancient Britain; 3. An investigation of the Ancient British Historians, Gildas and Nennius, and the more obscure British chroniclers; 4. The ancient stone monuments of the Celtic period; and, lastly, some curious and interesting notices of the early British Church. Mr. Poste has not touched on subjects which have received much attention from others, save in cases where he had something new to offer, and the volume must be regarded, therefore, as an entirely new collection of discoveries and deductions tending to throw light on the darkest, as well as the earliest, portion of our national history."—*Atlas*.

Britannia Antiqua, or Ancient Britain brought within the Limits of Authentic History. By the Rev. BEALE POSTE. 8vo. pp. 386, map, cloth, 14s. 1857

A Sequel to the foregoing work.

Letters of the Kings of England.—Now first collected from the Originals in Royal Archives, and from other Authentic Sources, private as well as public. Edited, with Historical Introduction and Notes, by J. O. HALLIWELL. Two handsome volumes, post 8vo. with portraits of Henry VIII. and Charles I., cloth, 8s. (original price £1. 1s.) 1848

These volumes form a good companion to Ellis's Original Letters.

The collection comprises, for the first time, the love-letters of Henry VIII. to Anne Boleyn in a complete form, which may be regarded, perhaps, as the most singular documents of the kind that have descended to our times; the series of letters of Edward VI. will be found very interesting specimens of composition; some of the letters of James I., hitherto unpublished, throw light on the murder of Overbury, and prove beyond a doubt the King was implicated in it in some extraordinary and unpleasant way; but his letters to the Duke of Buckingham are of the most singular nature: only imagine a letter from a sovereign to his prime minister commencing thus:—"My own sweet and dear child, blessing, blessing, blessing on thy heart-roots and all thine." Prince Charles and the Duke of Buckingham's Journey into Spain has never been before so fully illustrated as it is by the documents given in this work, which also includes the very curious letters from the Duke and Duchesses of Buckingham to James I.

Inquiry into the Particulars connected with the Death of Amy Robsart (Lady Dudley), at Cumnor Place, Berks, Sept. 8, 1560; being a refutation of the Calumnies charged against Sir Robert Dudley, Anthony Forster, and others. By J. T. PETTIGREW, 8vo., 2s. 1859

Historical Sketches of the Angling Literature of all Nations. By ROBERT BLAKEY. To which is added a Bibliographical Catalogue of English Books on Angling and Ichthyology, 12mo. cloth, 5s. 1856

The Pilgrim Fathers.—Collections concerning the Church or Congregation of Protestant Separatists formed at Scrooby, in North Nottinghamshire, in the time of James I., the Founders of New Plymouth, the Parent Colony of New England. By the Rev. JOSEPH HUNTER, F.S.A., and an Assistant Keeper of Her Majesty's Records. 8vo. cloth, 8s. 1854

This work contains some very important particulars of these personages, and their connections previously to their leaving England and Holland, which were entirely unknown to former writers, and have only recently been discovered, through the indefatigable exertions of the Author. Prefixed to the volume are some beautiful Prefatory Stanzas by Richard Monckton Milnes, Esq., M.P.

Love Letters of Mrs. Piozzi (formerly Mrs. Thrale, the friend of Dr. Johnson), written when she was Eighty, to the handsome actor, William Augustus Conway, aged Twenty-seven. 8vo. sewed, 2s. 1843

"—written at three, four, and five o'clock (in the morning) by an octogenary pen; a heart (as Mrs. Lee says) twenty-six years old, and as H. L. P. feels it to be, all your own."—*Letter V.*, 3rd. Feb., 1820.

"This is one of the most extraordinary collections of love epistles we have chanced to meet with, and the well-known literary reputation of the lady—the Mrs. Thrale, of Dr. Johnson and Miss Burney Celebrity—considerably enhances their interest. The letters themselves it is not easy to characterise; nor shall we venture to decide whether they more bespeak the drivelling of dotage, or the folly of love; in either case they present human nature to us under a new aspect, and furnish one of those riddles which nothing yet dreamt of in our philosophy can satisfactorily solve."—*Polytechnic Review*.

A Life of Shakespeare, including many particulars respecting the Poet and his Family, never before published, by J. O. HALLIWELL, F.R.S., &c. In one handsome volume, 8vo. *illustrated with 76 engravings on wood, of objects, most of which are new, from drawings by Fairholt, cloth, 1 5s.* 1848

This work contains upwards of forty documents respecting Shakespeare and his family, never before published, besides numerous others, indirectly illustrating the Poet's biography. All the anecdotes and traditions concerning Shakespeare are here, for the first time, collected, and much new light is thrown on his personal history, by papers exhibiting him as selling Malt, Stone, &c. Of the seventy-six engravings which illustrate the volume, more than fifty have never before been engraved.

It is the only life of Shakespeare to be bought separately from his works.

"Very often we find ourselves differing from Mr. Walker on readings and interpretations, but we seldom differ from him without respect for his scholarship and care. His are not the wild guesses at truth which neither gods nor men have stomach to endure, but the suggestions of a trained intelligence and a chastened taste. Future editors and commentators will be bound to consult these volumes, and consider their suggestions."—*Athenaeum*.

"Mr. Dyce's Notes are peculiarly delightful, from the stores of illustration with which his extensive reading not only among our writers, but among those of other countries, especially of the Italian poets, has enabled him to enrich them. All that he has recorded is valuable. We read his little volume with pleasure, and close it with regret."—*Literary Gazette*.

- "From the unpublished Anglo-Irish legislative enactments, and from such-like decayed and decaying manuscripts, ancient records, which have become almost hieroglyphics to the present age, the author of this work has gathered the life-history of an ancient city; he has made the stones to speak, and evoke the shadows of the past, to fill up the outline of a great historical picture. Fifty, even twenty, years hence, the production of such a work would be impossible. In a history illustrated by human lives and deeds, and localized in the weird old streets, once the proudest of our city, many a family will find an ancestral shadow starting suddenly to light, trailing with it long memories of departed fashion, grandeur, and magnificence."—*Dublin University Magazine*.

Patronymica Britannica, a Dictionary of Family Names. By MARK ANTONY LOWER, M.A., F.S.A. Royal 8vo. pp. 500, with illustrations, cloth, £1. 5s. 1860

This work is the result of a study of British Family Names, extending over more than twenty years. The favourable reception which the Author's "English Surnames" obtained in the sale of Three Editions, and the many hundreds of communications to which that work gave rise, have convinced him that the subject is one in which considerable interest is felt. He has therefore been induced to devote a large amount of attention to the origin, meaning, and history of our family designations—a subject which, when investigated in the light of ancient records and of modern philology, proves highly illustrative of many habits and customs of our ancestors, and forms a very curious branch of Archæology.

The present work is by no means intended to supersede the "English Surnames." That publication bears the same relation to the PATRONYMICA as the grammar of a language does to its dictionary. There the principles upon which surnames were assumed are discussed, and a considerable number of them are classified, but here many thousands of family names are treated individually and alphabetically.

English Surnames. An Essay on Family Nomenclature, Historical, Etymological, and Humorous. With several illustrative Appendices. By MARK ANTONY LOWER, M.A. 2 vols. post 8vo. THIRD EDITION, ENLARGED, woodcuts, cloth, 12s. 1849

This new and much improved Edition, besides a great enlargement of the Chapters, contained in the previous editions, comprises several that are entirely new, together with Notes on Scottish, Irish, and Norman Surnames. The "Additional Prolifusions," besides the articles on Rebuses, Allusive Arms, and the Roll of Battle Abbey, contain dissertations on Inn Signs, and Remarks on Christian Names, with a copious INDEX of many thousand Names. These features render "English Surnames" rather a new work than a new edition.

A Display of Heraldry. By WILLIAM NEWTON. 8vo. many hundred engravings of Shields, illustrating the Arms of English Families, cloth, 14s. 1846

Curiosities of Heraldry, with Illustrations from Old English Writers. By MARK ANTONY LOWER, M.A., Author of "Essays on English Surnames." With illuminated Title-page, and numerous engravings from designs by the Author. 8vo. cloth, 14s. 1845

"The present volume is truly a worthy sequel (to the 'SUR-NAMEs') in the same curious and antiquarian line, blending with remarkable facts and intelligence, such a fund of amusing anecdote and illustration, that the reader is almost surprised to find that he has learned so much, whilst he appeared to be pursuing mere entertainment. The text is so pleasing that we scarcely dream of its sterling value; and it seems as if, in unison with the woodcuts, which so cleverly explain its points and adorn its various topics, the whole design were intended for a relaxation from study, rather than an ample exposition of an extraordinary and universal custom, which produced the most important effect upon the minds and habits of mankind."—*Literary Gazette*.

"Mr. Lower's work is both curious and instructive, while the manner of its treatment is so inviting and popular, that the subject to which it refers, which many have hitherto had too good reason to consider meagre and unprofitable, assumes, under the hands of the writer, the novelty of fiction with the importance of historical truth."—*Athenæum*.

Playing Cards.—Facts and Speculations on the History of Playing Cards in Europe.

By W. A. CHATTO, author of the "History of Wood Engraving, with Illustrations by J. Jackson." 8vo. *profusely illustrated with engravings, both plain and coloured, cloth* £1. 1s. 1848

"The inquiry into the origin and signification of the suits and their marks, and the heraldic, theological, and political emblems pictured from time to time, in their changes, opens a new field of antiquarian interest; and the perseverance with which Mr. Chatto has explored it, leaves little to be gained by his successors. The plates with which the volume is enriched add considerably to its value in this point of view. It is not to be denied that, take it altogether, it contains more matter than has ever before been collected in one view upon the same subject. In spite of its faults, it is exceedingly amusing; and the most critical reader cannot fail to be entertained by the variety of curious outlying learning Mr. Chatto has somehow contrived to draw into the investigations."—*Atlas*.

"Indeed the entire production deserves our warmest approbation."—*Literary Gazette*.

"A perfect fund of antiquarian research, and most interesting even to persons who never play at cards."—*Tait's Magazine*.

"A curious, entertaining, and really learned book."—*Rambler*.

"**Biblia Pauperum.**" One of the Earliest and most Curious BLOCK-BOOKS, reproduced in facsimile from a Copy in the British Museum. By J. PH. BERJEAU. Royal 4to. *half-bound, £2. 2s.* 1859

he *Biblia Pauperum*, known also by the title of *Historia Veteris et Novi Testamenti*, is a set of woodcuts, in which the Old and New Testament are both brought to memory by pictures, and some lines of text in Latin. This name, *Biblia Pauperum*, is derived from its use by Monks of the poorer orders, commonly called *Pauperes Christi*.

As a specimen of the earliest woodcuts and of printed block-books, defined to supersede the manuscripts anterior to the valuable invention of Güttenberg, the *Biblia Pauperum* is well worthy the attention of the Amateur of Fine Arts as well as of the Bibliographer. It consists of forty engravings, printed on one side only of the leaves, and disposed so as to have the figures opposite each other.

The engravings were printed by friction, with a substance of a brownish yellow colour, instead of printing ink, which was unknown at this early period.—To imitate, as near as possible, the original, the plates in this facsimile are disposed opposite each other, and printed in a brownish colour.—Various Editions of this Block-book have been discovered, without any writer being able to say which is the first one. A review of them is given in the printed Introduction of the book.

Besides the rhymed Latin Poetry—of which part was given by

Heineken, and after him by Ottley—the Introduction gives, for the first time, the wole of the Text printed on both sides in the upper compartment, as well as an English Explanation of the Subjects.

Frequently as we read of the Works of Caxton and the early English Printers, and of their Black-Letter Books, very few persons ever had the opportunity of seeing any of these productions, and forming a proper estimate of the ingenuity and skill of those who first practised the "Noble Art of Printing."

THE TYPE HAS BEEN CAREFULLY IMITATED, AND THE WOODCUTS FACSIMILIED BY MISS BYFIELD. The Paper and Water-marks have also been made expressly, as near as possible, like the original; and the Book is accompanied by a few remarks of a practical nature, which have been suggested during the progress of the fount, and the necessary study and comparison of Caxton's Works with those of his contemporaries in Germany, by MR. V. FIGGINS, who spent two years "labour of love" in cutting the matrices for the type.

The Iliads of Homer, Prince of Poets, never before in any language truly translated, with a Comment on some of his chief Places. Done according to the Greek by GEORGE CHAPMAN, with Introduction and Notes by the Rev. RICHARD HOOPER. 2 vols. square fcap. 8vo. *with portrait of Chapman, and frontispiece, 12s.* 1857

"The translation of Homer, published by George Chapman, is one of the greatest treasures the English language can boast."—*Godwin.*

"With Chapman, Pope had frequently consultations, and perhaps never translated any passage till he read his version."—*Dr. Johnson.*

"He covers his defects with a daring, fiery spirit, that animates his translation, which is something like what one might imagine Homer himself to have writ before he arrived at years of discretion."—*Pope.*

"Chapman's translation, with all its defects, is often exceedingly Homeric, which Pope himself seldom obtained."—*Hallam.*

"Chapman writes and feels as a Poet—as Homer might have written had he lived in England in the reign of Queen Elizabeth."—*Coleridge.*

"I have just finished Chapman's Homer. Did you ever read it?—it has the most continuous power of interesting you all along. . . The earnestness and passion which he has put into every part of these poems would be incredible to a reader of mere modern translation."—*Charles Lamb.*

"The editor of these five rare volumes has done an incalculable service to English Literature by taking George Chapman's folios out of the dust of time-honoured libraries; by collating them with loving care and patience, and, through the agency of his enterprising publisher, bringing Chapman entire and complete within the reach of those who can best appreciate and least afford to purchase the early editions."—*Athenæum.*

"Mr. Wright is a man who thinks for himself, and one who has evidently a title to do so. Christmastide, its History, Festivities, and Carols (*with their music*). By WILLIAM SANDYS, Esq., F.S.A. In a handsome vol. 8vo. illustrated with 20 engravings after the designs of J. Stephanoff, extra cloth, gilt edges, 5s. (original price 14s.)

"Its title vouches that *Christmastide* is germane to the time. Mr. Sandys has brought together, in an octavo of some 300 pages, a great deal of often interesting information beyond the stale gossip about "Christmas in the olden time," and the threadbare make-believes of jollity and geniality which furnish forth most books on the subject. His carols, too, which include some in old French and Provençal, are selected from numerous sources, and comprise many of the less known and more worth knowing. His materials are prefaced with good feeling and mastery of his theme. On the whole the volume deserves, and should anticipate, a welcome."—*Spectator*.

The specimens contain two or three lines each besides the signature, so that to the historian such a work will recommend itself as enabling him to test the genuineness of the document he consults, whilst the judgment of the autograph collector may be similarly assisted, and his pecuniary resources economized by a judicious use of the "Manual." To the bookworm, whose name is "Jejion," he would merely observe, that daily experience teaches us the great value and interest attached to books containing "marginal notes" and "memoranda," when traced to be from the pens of eminent persons.

- "Mr. Barnes is a reader and a thinker. He has a third and a conspicuous merit—his style is perfectly lucid and simple. If the humblest reader of ordinary intelligence desired to follow out the process by which societies are built up and held together, he has but to betake himself to the study of Mr. Barnes's epitome. The title "Views of Labour and Gold," cannot be said to indicate the scope of the Essays, which open with pictures of primitive life, and pass on, through an agreeably diversified range of topics, to considerations of the rights, duties, and interests of Labour and Capital, and to the enquiry, What constitutes the utility, wealth, and positive well being of a nation? Subjects of this class are rarely handled with so firm a grasp and such light and artistic manipulation."—*Athenaeum*.
- "The opinion of such a Scholar and Clergyman of the Established Church on subjects of political economy cannot fail to be both interesting and instructive, and the originality of some of his views and expressions is well calculated to attract and to repay the most careful attention."—*Financial Reformer*.

The aim of the translator has been to give the meaning and idiom of the Greek as far as possible in English words. The book is printed in paragraphs (the verses of the authorised version are numbered in the margin), the speeches by inverted commas, and the quotations from the "Old Testament" in italics. Those passages which seem to be poetry in a smaller type. It is entirely free from any motive to enforce doctrinal points. Five large impressions of the volume sufficiently test its value. The price now places it within the reach of all classes.

"Upon the whole we must admit that Mr. Sharpe's is the most correct English version in existence, either of the whole or of any portion of the New Testament."—*The Ecclesiastic*, quoted with approval by the *English Churchman*, 18th Dec., 1862.

A Journal of Summer Time in the Country. By ROBERT ARIS WILLMOTT, some time Incumbent of Bear Wood, Berks. Fourth edition, to which is added an Introductory Memoir by his Sister. Foolscap 8vo, elegantly printed by Whittingham, extra cloth. 5s.

"This 'Journal of Summer Time' is a genial gossip of literary matters under the various days of the month from May to August. It is full of anecdote, and full of interest; and is a sort of literary natural history, like that of Selborne, by good Gilbert White. The observations, the reading, the meditations of a well-trained, well-filled mind, give this volume its charm, and make it one which even the best-informed reader may wile away an hour with in recalling his own wanderings in the literary fields. The great glory of this book is that it is thoroughly natural. It does not aim at fine writing or sensation stories, but jots down from day to day such memoranda as a well-stored mind, familiar with the great treasures of our literature, would give forth in the quiet of a country parsonage, when Summer smiled over the fields and woods, and a garden gave forth its pleasant sights and sounds."—*Birmingham Journal*.

Anglo-Saxon Delectus; serving as a first Class-Book to the Language, by the Rev. W. BARNES, B.D., of St. John's College, Cambridge. 12mo. cloth, 2s. 6d. 1849

"To those who wish to possess a critical knowledge of their own Native English, some acquaintance with Anglo-Saxon is indispensable; and we have never seen an introduction better calculated than the present to supply the wants of a beginner in a short space of time. The declensions and conjugations are well stated, and illustrated by references to Greek, the Latin, French, and other languages. A philosophical spirit pervades every part. The Delectus consists of short pieces on various subjects, with extracts from Anglo-Saxon History and the Saxon Chronicle. There is a good Glossary at the end."—*Athenæum*, Oct. 20, 1849.

Guide to the Anglo-Saxon Tongue; on the Basis of Professor Rask's Grammar; to which are added Reading Lessons, in Verse and Prose, with Notes, for the use of Learners, by E. J. VERNON, B.A., Oxon. 12mo. cloth, 5s. 1855

"Mr. Vernon has, we think, acted wisely in taking Rask for his model; but let no one suppose from the title that the book is merely a compilation from the work of that philologist. The accidence is abridged from Rask, with constant revision, correction, and modification; but the syntax, a most important portion of the book, is original, and is compiled with great care and skill; and the latter half of the volume consists of a well-chosen selection of extracts from Anglo-Saxon writers, in prose and verse, for the practice of the student, who will find great assistance in reading them from the grammatical notes with which they are accompanied, and from the glossary which follows them. This volume, well studied, will enable any one to read with ease the generality of Anglo-Saxon writers; and its cheapness places it within the reach of every class. It has our hearty recommendation."—*Literary Gazette*.

Anglo-Saxon Version of the Story of Apollonius of Tyre, upon which is founded the Play of Pericles, attributed to Shakespeare, from a MS., with a Translation and Glossary by BENJAMIN THORPE. 12mo. cloth, 4s. 6d. (original price 6s.) 1834

A Philological Grammar, grounded upon English, and formed from a comparison of more than Sixty Languages. Being an Introduction to the Science of Grammars of all Languages, especially English, Latin, and Greek. By the Rev. W. BARNES, B.D., of St. John's College, Cambridge; Author of "Poems in the Dorset Dialect," "Anglo-Saxon Delectus," &c., 8vo. (pp. 322), cloth, 9s. 1854

"Mr. Barnes' work is an excellent specimen of the manner in which the advancing study of Philology may be brought to illustrate and enrich a scientific exposition of English Grammar."—*Edinburgh Guardian*.

"Of the science of Grammar, by induction from the philological facts of many languages, Mr. Barnes has, in this volume, supplied a concise and comprehensive manual. Grammarians may differ as to the regularity of the principles on which nations have constructed their forms and usages of speech, but it is generally allowed that some conformity or similarity of practice may be traced, and that an attempt may be made to expound a true science of Grammar. Mr. Barnes has so far grounded his Grammar upon English as to make it an English Grammar, but he has continually referred to comparative philology, and sought to render his work illustrative of general forms, in conformity with principles common, more or less, to the language of all mankind. More than sixty languages have been compared in the course of preparing the volume; and the general principles laid down will be found useful in the study of various tongues. It is a learned and philosophical treatise."—*Literary Gazette*.

Skelton (John, Poet Laureate to Henry VIII.) Poetical Works: the Bowge of Court, Colin Clout, Why come ye not to Court? (his celebrated Satire on Wolsey), Phillip Sparrow, Elinour Rummung, &c.; with Notes and Life by the Rev. A. DYCE. 2 vols. 8vo. cloth, 16s. (original price £1. 12s.) 1843

“The power, the strangeness, the volubility of his language, the audacity of his satire, and the perfect originality of his manner, made Skelton one of the most extraordinary writers of any age or country.”—*Southey*.

Early History of Freemasonry in England. Illustrated by an English Poem of the XIVth Century, with Notes by J. O. HALLIWELL. Post 8vo. second edition, with a facsimile of the original MS. in the British Museum, cloth, 2s. 6d.

1844

“The interest which the curious poem, of which this publication is chiefly composed, has excited, is proved by the fact of its having been translated into German, and of its having reached a second edition, which is not common with such publications. Mr. Halliwell has carefully revised the new edition, and increased its utility by the addition of a complete and correct Glossary.”—*Literary Gazette*.

Torrent of Portugal; an English Metrical Romance. Now first published, from an unique MS. of the XVth Century, preserved in the Chetham Library at Manchester, edited by J. O. HALLIWELL, &c. Post 8vo. cloth, uniform with *Ritson, Weber, and Ellis's publications*, cloth, 5s.

The Vision and Creed of Piers Ploughman, edited by THOMAS WRIGHT; a new edition, revised, with additions to the Notes and Glossary. 2 vols. foolscap 8vo. cloth, 10s.

1856

“The ‘Vision of Piers Ploughman’ is one of the most precious and interesting monuments of the English Language and Literature, and also of the social and political condition of the country during the fourteenth century. . . . Its author is not certainly known, but its time of composition can, by internal evidence, be fixed at about the year 1362. On this and on all matters bearing upon the origin and object of the poem, Mr. Wright’s historical introduction gives ample information. . . . In the thirteen years that have passed since the first edition of the present text was published by the late Mr. Pickering, our old literature and history has been more studied, and we trust that a large circle of readers will be prepared to welcome this cheaper and carefully revised reprint.”—*Literary Gazette*.

- Anecdota Literaria; a Collection of Short Poems in English, Latin, and French, illustrative of the Literature and History of England in the XIIIth Century; and more especially of the Condition and Manners of the different Classes of Society.** By T. WRIGHT, M.A., F.S.A., &c. 8vo. *cloth, only 250 copies printed, 5s.* 1844

- It contains above 50,000 words (embodying all the known scattered glossaries of the English language), forming a complete key for the reader of our old Poets, Dramatists, Theologians, and other authors, whose works abound with allusions, of which explanations are not to be found in ordinary Dictionaries and books of reference. Most of the principal Archaisms are illustrated by examples selected from early inedited MSS. and rare books, and by far the greater portion will be found to be original authorities.
- A Glossary; or, Collection of Words, Phrases, Customs, Proverbs, &c., illustrating the Works of English Authors, particularly Shakespeare and his Contemporaries.** By ROBERT NARES, Archdeacon of Stafford, &c. A New Edition, with considerable Additions, both of Words and Examples. By JAMES O. HALLIWELL, F.R.S., and THOMAS WRIGHT, M.A., F.S.A. 2 thick vols, 8vo. *cloth, £1. 8s.* 1859
- The Glossary of Archdeacon Nares is by far the best and most useful work we possess for explaining and illustrating the obsolete language and the customs and manners of the sixteenth and seventeenth centuries, and it is quite indispensable for the readers of the literature of the Elizabethan period. The additional words and examples are distinguished from those in the original text by a † prefixed to each. The work contains between *five and six thousand* additional examples, the result of original research, not merely supplementary to Nares, but to all other compilations of the kind.
- Thompson (E.) on the Archaic Mode of expressing Numbers in English, Anglo-Saxon, Frieic, &c.** 8vo. (*an ingenious and learned pamphlet, interesting to the Philologist*), 1s. 1853

- Nathan Hogg's Letters and Poems in the Devonshire Dialect.** *The fourth edition, with additions, post 8vo. sewed, 1s.* 1860
- "These letters, which have achieved considerable popularity, evince an extensive acquaintance with the vernacular of the County and its idioms and phrases, while the continuous flow of wit and humour throughout, cannot fail to operate forcibly upon the risible faculties of the reader. In the Witch story Nathan has excelled himself, and it is to be hoped we have not seen his last effort in this branch of local English literature. The superfluous of Jan Vaggis and Jan Plant are most graphically and amusingly portrayed, and the various incidents whereby the influence of the 'Evil Eye,' is fought to be counteracted, are at once ludicrous and irresistible."—*Plymouth Mail.*
- Poems of Rural Life, in the Dorset Dialect, with a Dissertation and Glossary.** By the Rev. Wm. BARNES, B.D. *Second edition, enlarged and corrected, royal 12mo. cloth, 10s.* 1847
- Hwomely Rhymes; a Second Collection of Poems in the Dorset Dialect.** By the Rev. W. BARNES. Royal 12mo. *cloth, 5s.* 1859
- "The author is a genuine poet, and it is delightful to catch the pure breath of song in verses which assert themselves only as the modest vehicle of rare words and Saxon inflections. We have no intention of setting up the Dorset pathos against the more extended provincialism of Scotland, still less of comparing the Dorsetshire poet with the Scotch; yet we feel sure that these poems would have delighted the heart of Burns, that many of them are not unworthy of him, and that (at any rate) his best productions cannot express a more cordial sympathy with external nature, or a more loving interest in human joys and sorrows."—*Literary Gazette.*
- John Noakes and Mary Styles: a Poem, exhibiting some of the most striking lingual localisms peculiar to Essex; with a Glossary.** By CHARLES CLARK, Esq., of Great Totham Hall, Essex. Post 8vo. *cloth, 2s.* 1839

- "Contains about two thousand words. . . . It is believed the first and only collection of words and phrases peculiar to this district, and we hail it therefore as a valuable contribution to the history of language and literature . . . the author has evidently brought to bear an extensive personal acquaintance with the common language."—*Darlington Times*.
- Dialect of South Lancashire, or TIM BOBBIN'S Tummus and Meary; revised and corrected, with his Rhymes, and an enlarged Glossary of Words and Phrases, chiefly used by the Rural Population of the Manufacturing Districts of South Lancashire. - Leicestershire Words, Phrases, and Proverbs. By A. B. EVANS, D.D., *Head Master of Market-Bosworth Grammar School*. 12mo. *cloth*, 5s. 1848
- A Glossary of Northamptonshire Words and Phrases; with examples of their colloquial use, with illustrations from various Authors; to which are added, the Customs of the County. By Miss A. E. BAKER. 2 vols. post 8vo. *cloth*, 16s. (original price £1. 4s.) 1854
- "We are under great obligations to the lady, sister to the local historian of Northamptonshire, who has occupied her time in producing this very capital Glossary of Northamptonshire provincialisms."—*Examiner*.
- "The provincial dialects of England contain and preserve the elements and rudiments of our compound tongue. In Miss Baker's admirable 'Northamptonshire Glossary,' we have rather a repository of archaisms than vulgarisms. But it is much more than a vocabulary; it preserves not only dialectical peculiarities, but odd and disappearing customs; and there is hardly a page in it which does not throw light on some obscurity in our writers, or recall old habits and practices."—*Christian Remembrancer, Quarterly Review*.
- A Glossary of the Provincialisms of the County of Suffex. By W. DURRANT COOPER, F.S.A. Post 8vo. *second edition, enlarged, cloth*, 5s. 1823

- This work, though intended as an introduction and a guide to the study of our early antiquities, will, it is hoped, also prove of service as a book of reference to the practised Archæologist.
- "One of the first wants of an incipient Antiquary is the facility of comparison; and here it is furnished him at one glance. The Plates, indeed, form the most valuable part of the book, both by their number and the judicious selection of types and examples which they contain. It is a book which we can, on this account, safely and warmly recommend to all who are interested in the antiquities of their native land."—*Literary Gazette*.
